

1. Fracción después de aplicar la condición:

$$P=4$$

$$p=3$$

$$N=4$$

$$n=0$$

2. Fracción antes de aplicar la condición:

A screenshot of a calculator interface. The input field shows the expression $4/(4+4)$. Below it, the calculator shows the expression $4/(4 + 4)$ and the result $= 0.5$. The interface includes a top bar with a close button, a bottom bar with navigation options (Keypad, History, Conversion), and a status bar indicating 'EXACT RAD'.

A screenshot of a calculator interface. The input field shows the expression $3/(3+0)$. Below it, the calculator shows the expression $3/(3 + 0)$ and the result $= 1$. The interface includes a top bar with a close button, a bottom bar with navigation options (Keypad, History, Conversion), and a status bar indicating 'EXACT RAD'.

03. Logaritmos:

A screenshot of a calculator interface. The input field shows the expression $\log_2(4/8)$. Below it, the calculator shows the expression $\log_2(\text{Value: a number} \geq 0)$ and the result $= -1$. The interface includes a top bar with a close button, a bottom bar with navigation options (Keypad, History, Conversion), and a status bar indicating 'EXACT RAD'.

A screenshot of a calculator interface. The input field shows the expression $\log_2(3/3)$. Below it, the calculator shows the expression $\log_2(\text{Value: a number} \geq 0)$ and the result $= 0$. The interface includes a top bar with a close button, a bottom bar with navigation options (Keypad, History, Conversion), and a status bar indicating 'EXACT RAD'.

4. FOIL Gain:

A calculator interface showing the calculation $3 \times (0 - (-1))$. The input is $3 \times (0 - (-1))$ and the result is $= 3$. The text "EXACT RAD" is visible on the right side.

c)

1. Fracción después de aplicar la condición:

$$\begin{aligned} p &= 4 \\ p &= 3 \\ N &= 4 \\ n &= 0 \end{aligned}$$

2. Fracción antes de aplicar la condición:

A calculator interface showing the calculation $4 / (4 + 4)$. The input is $4 / (4 + 4)$ and the result is $= 0.5$. The text "EXACT RAD" is visible on the right side.

A calculator interface showing the calculation $3 / (3 + 0)$. The input is $3 / (3 + 0)$ and the result is $= 1$. The text "EXACT RAD" is visible on the right side. At the bottom, there are navigation options: "Keypad", "History", and "Conversion".

3. Logaritmos:

A calculator interface showing the calculation $\log_2(4/8)$. The input is $\log_2(4/8)$ and the result is $= -1$. The text "EXACT RAD" is visible on the right side. At the bottom, there is a button labeled "log: (Value: a number ≥ 0)".

$\log_2(3/3)$

$\log_2(\text{Value: a number} \geq 0)$

EXACT RAD

$= 0$

4. FOIL Gain:

$3 \times (0 - (-1))$

$3 \times (0 - (-1))$

EXACT RAD

$= 3$
